1) START

Geronticus (bald ibis) is a genus of birds in the family Threskiornithidae. Covered with a dark, hairless skin, these birds get their name from the Greek word γέρωντος (gerontos), meaning "old man".

There are 2 subspecies of these birds, the name of the species living in Turkey is Geronticus Eremita, the name of the species living in South Africa is Geronticus Calvus.

Unfortunately, like many animal species, Geronticus (bald ibis) birds are under threat of extinction.

2) DISCLAIMER

It is up to our investors whether they participate in accordance with the laws of the country in which they live.

In case of investment in this project, there is no guarantee that it will make an absolute profit.

3) OUR PURPOSE

With the Geronticus Token (GET), which we put up for sale, Geronticus (bald ibis) birds, which are under threat of extinction, will provide new facilities to the breeding, treatment and care center located in Birecik district of Şanlıurfa province in Turkey, and to breed in Syria, which is on the migration route, in case of political stability. to establish a shelter, treatment and care center, to establish a breeding, shelter, treatment and care center for Geronticus Calvus species in Morocco.
